

# Apprenticeships

## What you need to know...

Apprenticeships are a great way to start working in the sector of your choice, while studying towards a qualification and gaining practical skills – win, win. By doing an credit management apprenticeship with CICM, you'll develop all the knowledge, skills and behaviours that employers are looking for.

Whether you've just finished school or university, or are looking to change careers, at any age, we'll get you there. Throughout the apprenticeship you'll be earning a salary and, most importantly, you won't have to pay for your training at all, as the employer covers the costs – it's a no brainer.

There are five apprenticeships for those working in the credit profession. At each Level of apprenticeship you will be able to gain professional CICM qualifications. Alternative qualifications are available.

- Level 2 – Credit Controller / Collector
- Level 3 – Advanced Credit Controller and Debt Collection Specialist
- Level 3 – Compliance / Risk Officer Apprenticeship
- Level 6 – Senior Compliance / Risk Specialist
- Level 6 – Financial Services Degree

## Benefits

- Earn while you Learn
- Gain a globally recognised qualification
- Develop Technical and professional Skills
